

Invacare **Universal High Plus Sling**

Supports the whole body including the head giving the client a comfortable and slightly reclined position. The **Universal High Plus sling** also allows clients keep their arms outside the sling. It is typically used for those who have limited control of the head, trunk or hips – or for transfers to and from a lying position. The **Universal High sling** can also be used for seated to seated transfers. This model has a stiffened fabric in the back section, to ensure optimal weight distribution and comfort for the client.
